VIVID 35

VIVID 35

Traditional compact tractor with rigid chassis and differentiated wheels.

Four-wheel drive, short wheel base and large turning angles make Vivid 35 an agile and high performing multi-functional tractor: from transport operations inside the farm to work in the field and in vineyard and orchard rows, from greenhouses and nurseries to professional greens maintenance and winter use by municipalities.

A machine that offers the benefits of the BCS brand: compact dimensions, reliability, comfort and safety.

PTO independent

and synchronised with the forwarding speed.

Rear Brakes

with multidisc in oil bath.

from the gearbox

WIDE RANGE OF OPTIONALS Front lift with front and under-belly PTO at 1700 rpm, rear lift with position and draft control, seat with spring, adjustable steering wheel, rear work light, front weights and wheel weights, tyres with Tractor or Garden profile. Synchronised gearbox Generous hydraulic system (12 FWD + 12 REV) with with the possibility of fitting up to a maximum of 6 hydraulic outlets. synchronised reverser. Maximum speed of 30 km/h. 4WD with front-wheel drive disengagement.

GENEROUS ENGINE

In the power range below 19 kW, the new Kohler KDW 1404 proves to be a generous engine because with 4 cylinders and 1400 cubic centimetres, it develops a torque of 78 Nm.

The addition of a speed governor makes the engine snappier and more responsive to loads.

DRIVING POSITION

The driving position of Vivid 35 was designed to-measure for the driver with all of the controls set up ergonomically and easy to use.

Comfort seat with adjustable spring tension according to the operator's weight and height-adjustable steering wheel (opt.) to configure the driver's seat for the maximum operational comfort.

A modern dashboard with analogue instruments offers total control of the tractor's status.

Hydrostatic steering guarantees maximum manoeuvrability and contained turning radii to work better even in tight spaces.
